Registration Deadline
Oct, 21, 2024

Message for Symposium

Dr. Arman Zargaran

Chair, International Symposium on Policy,
Legal and Regulation Landscape on
Traditional and Complementary Medicine

Today, the use of traditional and complementary medicine integrated with conventional medicine in the health system is considered as a way approved by the World Health Organization in many countries to promote health. In this regard, different countries have different experiences of how to integrate traditional medicine in their health system. Some countries have been leaders in this integration and their experiences in generalizing these successes for other countries are very important.

Iran, as a country that has one of the oldest and most important types of traditional medicine in the world, called Persian medicine, has successfully developed integration of traditional medicine into the health system in various aspects of education, research, providing medical services and Traditional and natural medicines. Therefore, Tehran University of Medical Sciences, with the support of the Office of Persian and Complementary Medicine at the Ministry of Health and Medical Education of Iran, with the participation of many centers and universities in this field, plans to hold "International Symposium on Policy, Legal and Regulatory Landscape of Traditional and Complementary Medicine" in November this year in Tehran, the capital of Iran.

This event is intended to provide a platform for researchers and officials related to the field of traditional medicine from different countries to exchange their experiences in the fields of policy making, legislation and regulations. This event can provide a good opportunity for stakeholders from different countries to learn from each other in this field. Finally, gathering these experiences and discussions in this symposium will provide an important output for the future of integration of traditional medicines in the national health system of countries.

Symposium Organization

Honorary Presidents:

Assistant Prof. Dr. Nafiseh Hosseini Yekta

Director General, Office of Persian
and Complementary Medicine,
Ministry of Health and Medical
Education, Iran

Associate Prof. Dr. Mohammad H. Ayati

Vice Chancellor for International
Affairs, Tehran University of Medical
Sciences

Chair:

Associate Prof. Dr. Arman Zargaran

School of Persian Medicine, Tehran
University of Medical Sciences,
Iran

Executive Committee

1. Assistant Prof. Ardalan Shariat (Tehran University of Medical Sciences, Iran)
2. Dr. Majid Khalili (Office of Persian and Complementary Medicine, Ministry of Health and Medical education, Iran)
3. Hamed Ahansazan (Tehran University of Medical Sciences, Iran)
4. Dr. Peiman Khamehchi (Iranian Medical Council)
5. Zahra Rafiei (Office of Persian and Complementary Medicine, Ministry of Health and Medical education, Iran)
6. Nasrin Dastjerdi (Tehran University of Medical Sciences, Iran)

Scientific Committee

1. Assistant Prof. Dr. Alireza Abbassian (Tehran University of Medical Sciences, Iran)
2. Assistant Prof. Dr. Hamed Arezaei (Iran University of Medical Sciences, Iran)
3. Associate Prof. Dr. Pravit Akarasereenont (Mahidol University, Thailand)
4. Associate Prof. Dr. Mohammad H. Ayati (Tehran University of Medical Sciences, Iran)
5. Assistant Prof. Dr. Roodabeh Bahramsoltani (Tehran University of Medical Sciences, Iran)
6. Associate Prof. Ghazaleh Heydarirad (Shahid Beheshti University of Medical Sciences, Iran)
7. Assistant Prof. Nafiseh Hosseini Yekta (Shahid Beheshti University of Medical Sciences, Iran)
8. Dr. Shahrzad Irannejad (Marburg University, Germany)
9. Instructor. Dr. Ketmanee Jongjiamdee (Mahidol University, Thailand)
10. Prof. Dr. Yeonseok Kang (Wonkwang University, South Korea)
11. Associate Prof. Dr. Mehrdad Karimi (Tehran University of Medical Sciences, Iran)
12. Assistant Prof. Roshanak Mokaberinezhad (Shahid Beheshti University of Medical Sciences, Iran)
13. Professor Dr. Roja Rahimi (Tehran University of Medical Sciences, Iran)
14. Assistant Prof. Dr. S. Narges Sadati (Tehran University of Medical Sciences, Iran)
15. Associate Prof. Dr. Arman Zargaran (Tehran University of Medical Sciences, Iran)

International Symposium on
Policy, Legal and Regulatory Landscape of
Traditional and Complementary Medicine
Nov. 21-23, 2024 – Tehran
Tentative Program

Nov. 20, 2024	
Opening Ceremony	19:00-22:00
Nov. 21, 2024	
Scientific Session 1: Global and National Policy for Integration of Traditional Medicine in National Health Systems 1	08:00 – 10:00
Break	10:00 - 10:30
Scientific Session 2: Global and National Policy for Integration of Traditional Medicine in National Health Systems 2	10:30 - 12:30
Lunch	12:30 – 13:30
Scientific Session 3: Traditional Medicine Training and Higher Education	13:30 – 15:30
Gala Dinner	19:00 – 22:00
Nov. 23, 2024	
Scientific Session 4: Regulations for Integration of Traditional Medicine Services	08:00 – 10:00
Break	10:00 - 10:30
Scientific Session 5: Regulations for Natural and Traditional Medicine Products	10:30 - 12:30
Lunch	12:30 – 13:30
Closing Ceremony	13:30 – 14:30
Nov. 22, 2024	
City tour/ visiting T&CM centers	08:00 – 19:00

Keynote Speakers:

Dr. Sung Chol KIM

Position: Unit Head, Traditional, complementary and Integrative Medicine, Integrated Health Service Department, World Health Organization (WHO).

Email: kims@who.int

Short Biography

I have worked as a Unit Head for Traditional, Complementary and Integrative Medicine under Integrated health Service department (IHS), UHL division, WHO HQ in Geneva since Feb. 2023

Before that, I had worked as a Regional Advisor for Traditional Medicine, WHO South-East Asia Regional Office in New Delhi, India from July 2013 until Feb. 2023. Before joining to the WHO South East Asia Regional office, I worked as a National Professional Officer (NPO) at the WHO country office to DPR Korea between 2003 and 2013.

I have a doctor degree of biomedicine and traditional Chinese medicine (so called "Oriental Medicine") together with Master's degree of Public Health degree and 10 years working experience at the National Academy of Korean Traditional Medicine (Koryo Medicine) Science, before joining to the WHO.

My main expertise covers TM research, TM policy and regulatory system development and its integration into health system and service delivery including M&E for TM system performance, integrated clinical practice guideline development and others.

Dr. Pravit AKARASEREENONT

Position: Head of Siriraj Center of Applied Thai Traditional Medicine (Si-CATTM), Head of Division of Inflammopharmacology, Pharmacology Department, Faculty of Medicine Siriraj Hospital, Mahidol University, Thailand, Director of WHO CC for traditional medicine in Thailand.

Email: pravit.auk@mahidol.edu

Short Biography

Dr. Pravit Akarasereenont completed his MD from the Faculty of Medicine, Siriraj Hospital, Mahidol University in 1991, graduating with Second Class Honours. In 1993, he joined the research group of Prof. Sir John Vane, a Nobel laureate, at the William Harvey Institute, University of London, where he earned his PhD in Pharmacology in 1995. Upon returning to Thailand, Dr. Pravit established an inflammation research group at Siriraj Hospital, contributing significantly to the field through numerous national and international publications.

In 2003, Dr. Pravit was appointed Deputy Head of the Center of Applied Thai Traditional Medicine, where he played a pivotal role in advancing herbal medicine research by integrating a reverse pharmacology model. His contributions to the field were further recognized in 2015 when he became involved in the establishment of the metabolomics platform at Siriraj Hospital, subsequently serving as Deputy Head of the Siriraj Metabolomics and Phenomics Center (SiMPC).

In 2017, Dr. Pravit was appointed as the Head of the Siriraj Center of Applied Thai Traditional Medicine (Si-CATTM). His leadership extended further in 2018 when he became the Director of the WHO Collaborating Center for Traditional Medicine (WHOCC-TM) at Si-CATTM, Faculty of Medicine Siriraj Hospital, Mahidol University. Currently, he leads the Metabolomics Group in Thai Traditional Medicine at Siriraj Hospital, where he is at the forefront of developing a reverse metabolomics model for Thai traditional medicine research.

Dr. Pravit's research interests focus on the application of multi-omics analysis in systems medicine, utilizing big data for personalized and precision medicine. He is also pioneering the development of an AI platform for Thai traditional medicine.

Dr. Mohammad Hossein Ayati, MD, PhD, LAc

Position: Associate Professor;

Department of Traditional Medicine, School of Traditional Medicine,
Department of History of Medicine, School of Traditional Medicine,
Department of Tele-Health, School of Medicine,
Tehran University of Medical Sciences (TUMS),
- Vice-Chancellor for International Affairs, TUMS
- Dean of the International Campus, TUMS
- Guest Professor; Beijing University of Chinese Medicine (BUCM),
Beijing, China

- Memberships;

- Iranian National Scientific Board of Traditional Medicine & History of Medicine
- Medical Commission, Iranian National Legal Medicine Organization
- Scientific Department, China – Iran Friendship Association
- Vice-Chairman, Specialty Committee of Sub-health, World Federation of Chinese Medicine Societies (WFCMS)
- Iranian National Medical Council
- Online Profiles; Scopus, ORCID, Pubmed, Google Scholar

Email: mh-ayati@tums.ac.ir

Short Biography

Mohammad Hossein Ayati, born in 1976, passed high school in National Organization for Development of Exceptional Talents and placed 86th among 400,000 participants of "National Medical Entrance Exam" in 1994. He obtained his medical degree (7-years MD) in 2001 from Mashhad University of Medical Sciences, and then served his public service as a GP. In 2005, he won a full scholarship from Iran's MOH for a Clinical PhD on Chinese Medicine & Acupuncture in Beijing University of Chinese Medicine. He graduated as one of Top Ten BUCM graduates in 2010. Since 2011, he is serving as an Assistant Professor, and then since 2020 as an Associate Professor in School of Traditional Medicine of Tehran University of Medical Sciences, in two departments; Department of Traditional Medicine & Department of History of Medicine. He is active in research and teaching, runs an acupuncture clinic, and tutors postgraduate students. He published more than 90 papers, among which some are highly cited, and his scientific works can be accessed in Scopus and ORCID.

He is currently the Vice-Chancellor for International Affairs of TUMS.

Dr. Arman ZARGARAN

Position: Associate Professor of Traditional Pharmacy,

Director of International Affairs Development & Head of Department of History of Medicine at Tehran University of Medical Sciences, Tehran, Iran.

Email: azargaran@sina.tums.ac.ir

Short Biography

Arman Zargaran was born in 1985 in Tehran (Iran). He has studied pharmacy (PharmD) and PhD of traditional pharmacy (phytopharmaceuticals) in Shiraz University of Medical Sciences and graduated in 2010 and 2015, respectively. He has been faculty member (currently associate professor) of Traditional pharmacy at Tehran University of Medical Sciences since 2016 to now. He is also appointed as head of department of history of medicine in 2023 and is director of international affairs development at Tehran University of Medical Sciences. In ministry of health, Arman Zargaran is vice for international affairs at the office of Persian and complementary medicine. He is also the youngest member of the International Academy of History of Pharmacy. Zargaran is awarded as 2% top cited scientists based on Elsevier report since 2021, annually. His research interest is formulation and standardization of natural and traditional products, Persian medicine, ethnopharmacology and history of medicine. He has 10 books and more than 200 papers in the reputed peer reviewed international journals (has h-index 26 in Scopus). He has given more than 70 speeches at international congresses all around the world and was awarded many national and international awards during his scientific period of life.

Dr. Razak GYASI

Position: Professor/Research Scientist, African Population and Health Research Center, Kenya.

Email: RGyasi.Research@gmail.com

Short Biography

Prof Razak Gyasi is a Research Scientist of Social Gerontology at the African Population and Health Research Center (APHRC), Nairobi, Kenya, and an Adjunct Professor at the National Centre for Naturopathic Medicine, Faculty of Health, Southern Cross University, Lismore, New South Wales, Australia. He is a visiting Professor at the Kwame Nkrumah University of Science and Technology (KNUST) and a Fellow of the Council for the Development of Social Science Research in Africa (CODESRIA) and the Institute for Research in Africa (IFRA-Nigeria).

Prof Gyasi's research and publication interests are diverse and broad, focusing on aging epidemiology, social connection, socio-medical gerontology, lifestyle dynamics, and traditional/complementary/ integrative medicine (TCIM) in multilevel social contexts. He is an accomplished researcher with over 155 academic and scientific papers (h index=32, i10 index=69). He has editorial responsibilities as a Senior Associate Editor and Section Editor for Aging & Mental Health, Behavioral Medicine, Archives of Public Health, PLOS Global Public Health, etc.

Stanford University, in collaboration with Elsevier Publishers, has enviably named Prof Gyasi among the world's top 2% of scientists. As a technical advisor to the WHO Technical Advisory Group on Social Connection, Prof Gyasi is among the top 20 experts in the field. He attends Validation Workshops convened by the African Academy of Science (AAS). He attends high-level national, regional, and international forums, including membership in four technical working groups.

He holds a BA and MPhil in Health and Medical Geographies (TCIM) from Kwame Nkrumah University of Science and Technology, a PhD in Social Policy (Social Gerontology) from Lingnan University, Hong Kong, and a Postdoctoral Fellowship in aging research at APHRC.

Dr. Mujeeb HOOSEN

Position: Coordinator of Unani Tibb, School of Natural Medicine, Faculty of Community and Health Sciences, University of the Western Cape, South Africa.

Email: mujeebh786@gmail.com

Short Biography

Dr Mujeeb Hoosen is the Coordinator of Unani Tibb at the School of Natural Medicine, Faculty of Community and Health Sciences, University of the Western Cape in South Africa. He has been actively involved in the training, practice, research and promotion of Unani Tibb for more than a decade in South Africa. He was a previous chairperson of the South African Tibb Association and currently continues to support the association's dedication to Unani Tibb healthcare.

Dr Hoosen has contributed significantly to the norms, standards and regulation of Unani Tibb and Traditional, Complementary and Integrative Medicine (TCIM) at institutional, association, national and global level. Since 2018 he has served as an expert member, rapporteur, moderator, technical advisor and peer reviewer to several World Health Organization (WHO) committees for TCIM. In 2023, he was nominated by WHO as a Field-Testing Coordinator for ICD-11 for Traditional Medicine in South Africa. These WHO projects led to several benchmark publications for global implementation.

Dr Hoosen is also an Unani Tibb educator and clinical research consultant for the Ibn Sina Institute of Tibb. He has conducted several healthy living community projects based on the holistic healing principles of Unani Tibb and Tibb an Nabawi (Prophetic Medicine) for both the education and social sectors. He has conducted several Unani Tibb awareness programs for all types of media in South Africa. His research work on various Unani Tibb topics has been presented at both national and international conferences as well as published in internationally recognized peer reviewed journals.

Dr Hoosen currently serves on several international editorial advisory boards for TCIM. His research areas of interest are spirituality, spiritual care, Tibb an Nabawi, Unani Tibb therapeutics and health promotion.

He has represented South Africa as an international delegate at several international scientific events in many countries.

Dr. Ketmanee JONGIAMDEE

Position: Head of Academic Affairs of Center of Applied Thai Traditional medicine, Faculty of Medicine Siriraj Hospital, Mahidol University, Thailand.

Email: ketmanee.jon@mahidol.edu

Short Biography

Dr. Ketmanee Jongjamdee is the Thai Traditional Medicine (TTM) doctor and instructor with a deep commitment to advancing the field through both clinical practice and academic contributions at the Siriraj Center of Applied Thai Traditional Medicine (Si-CATTM). Dr. Ketmanee has dedicated her career to the study and application of TTM, particularly in therapeutic massage and midwifery. She holds a Bachelor's degree with first honors in Applied Thai Traditional Medicine from Mahidol University's Faculty of Medicine Siriraj Hospital, where she later earned her Doctorate in the same field.

Dr. Ketmanee has been a vital part of the Center of Applied Thai Traditional Medicine at Siriraj Hospital since 2013, where she currently serves as an Applied Thai Traditional Medical Doctor and Head of Academic Affairs. Her research interests focus on Thai traditional medicine, and she has actively participated in numerous conferences and workshops globally, sharing her expertise in TTM.

Her work has been published in several reputable journals, reflecting her dedication to integrating TTM with contemporary wellness practices. Dr. Ketmanee's contributions to the field have made her a recognized leader in Thai Traditional Medicine, particularly in the areas of manual therapy, Dhammanamaya, wellness, and the historical study of traditional medicine.

Dr. Yeonseok KANG

Position: Professor, College of Korean Medicine, & Director, Center for International Cooperation & Education on Korean Medicine, Wonkwang University, South Korea.

Email: yeonkang@wku.ac.kr

Short Biography

I have studied Korean Traditional Medicine historically as a traditional medicine doctor since graduated in college of Korean Medicine, Kyunghee university in 2002 and have taught Classics and history of East Asian traditional medicine as a professor in Wonkwang University since 2009.

Education, educational evaluation and national license examination of Korean Medicine are also my major fields as an expert member at Institute of Korean Medicine Evaluation and Education and Korea Health Personnel Licensing Examination Institute for the last 10 years.

Dean of International Affairs and Head of Center for International Cooperation & Education on Korean Medicine in Wonkwang University have been my recent positions to make international network more broaden in the field of traditional medicine and also in Wonkwang University.

It is also remarkable that I have been a core role for the last 20 years in MJmedi which is professional weekly newspaper founded in 1989 in Korean Medicine Society.

Dr. Ulfatun NISA

Position: Head, Traditional Health Service unit of Sardjito Hospital, Ministry of Health of Indonesia.

Email: redfa01@gmail.com

Short Biography

Dr. Ulfatun Nisa is head of traditional health service unit of sardjito hospital, Ministry of Health of Indonesia. She was a researcher in National Institute Health Research and Development (2014-2021) in medicinal plant and traditional medicine field before transformed into sardjito hospital. She held a director of Karomah Holistic hospital, Pekalongan, central java Indonesia. She had one patent about saintification jamu for rhinitis allergy and several patents still on progress. Number of Paten is P00201911897. There are 14 articles which is published in international journal with global reputation (Q2-Q3), and 10 articles in National journal. Delegation from Indonesia in International Conference Traditional medicine in Bangkok Thailand (2015) and Asian Traditional & Complementary Medicine Commemorative Conference in Filipina (2017). One of participant in Global Strategy Traditional Medicine consultative meeting which held by WHO SEARO in Thailand 2024. She is also practitioner in integrative medicine and acupuncturist.

Dr. Hossein REZAEIZADEH

Position: Chair, the Board of Traditional Medicine and Medical History, Ministry of Health, Iran.

Short Biography

I am Hossein Rezaizadeh, an Iranian teacher and researcher.

I was born in Abadan in 1977, but I grew up in Qom due to migration due to the war.

Thirty years ago, I was accepted into the medical field at Tehran University of Medical Sciences, and after that, in 2007, I studied in the same university in the first PhD course in traditional Persian medicine.

I am proud that I became a member of the faculty of Tehran University of Medical Sciences 11 years ago and now I am working as an associate professor.

I was the head of the first Persian medical school for about 8 years and now I am the secretary of the board of traditional medicine and history of medicine.

My research interest is improving the quality of life of cancer and multiple sclerosis patients.

Dr. Karl-Heinz STEINMETZ

Position: Director of Institute for Traditional European Medicine (InstiTEM), Vienna, Austria.

Associate Professor, University of Vienna, Austria.

Email: karl.steinmetz@institem.at

Short Biography

Born in Steinhöring, Germany in 1969, Karl-Heinz Steinmetz is an expert in Traditional European Medicine. He works as a trainer, a teacher, a researcher and as an entrepreneur. He develops TEM programs and implements them in spas, rehabilitation clinics, aftercare centers and in the medical wellness sector.

Professional Experience:

2011 – To Date: Founder/Director of Institute for Traditional European Medicine, Vienna (InstiTEM)

2022 – To Date: Co-founder/Head of Scientific Board of pan-European TEM-Forum (St. Gallen, Vienna, Munich, Milan etc.)

2017 – To Date: Lecturer for TEM for institutions such as FH-Campus Vienna, GAMED, Paracelsus Medical Private University Salzburg (PMU), NHK Zurich etc.

2015 – To Date: Member of the Board of GAMED = Vienna International Academy for Holistic Medicine

2009 – To Date: Associate Professor, University of Vienna, for History of Spirituality and spiritual care

1994 – 1998: Nurse: Care of people with severe multiple disabilities at Franziskus-Werk, Schönbrunn

Dr. Then SUYANTI

Position: Director of Public Health Management, Ministry of Health, Republic of Indonesia.

Email: thensuyanti@yahoo.com

Short Biography

Dr Then Suyanti is the Director for Public Health Management at the Ministry of Health.

She held a role as the Secretary of Bangka District Health Office for 10 years prior to her position as the Head of the Bangka District Health Office (2016-2023).

Dr Then also became the Director of Depati Bahrin Hospital in 2015.

Aside from that, Dr Then received the Indonesia Road Safety Award for excellence city category, Smart City category and special award for the best Smart City in Indonesia as well as the Public Service Innovation Policy Top 3 Innovation Award at Provincial Level.

Dr. Minke TANG

Position: Executive Director of Beijing Institute for Chinese Medicine Research, Beijing University of Chinese Medicine, China.

Email: tangmk@bucm.edu.cn

Short Biography

Dr. Tang is a full professor of pharmacology and the Executive Director of Beijing Institute for Chinese Medicine Research at Beijing University of Chinese Medicine. Dr. Tang has been working at Peking Union Medical College, University of California at Davis, and University of Pittsburg for several years. Currently, his lab focuses on the cellular and molecular mechanisms underlying Chinese medicine treating neurological diseases. Dr. Tang is the leading expert for the Core Discipline Program of Chinese Medicinal Pharmacology supported by the State Administration of Traditional Chinese Medicine of China. He serves for several academic committees, such as the Neuropharmacology Committee, and Anti-aging and Anti-Dementia Committee of the Chinese Pharmacological Society, the Drug Evaluation Consulting Committee of the National Medical Products Administration of China, etc.

Dr. Alexandros TILIKIDIS

Position: Founder and head of studies of Akadimia of ancient Greek and Traditional Chinese medicine, Greece.

Email: info@akadimia.gr

Short Biography

I was born in Athens, Greece 16/5/1966. I graduated from Medical School in Greece in 1991. After ten years I received the medical specialty in Physical Medicine and Rehabilitation in 2001. Since 1994 I have been practicing Acupuncture and I give my patients dietary advice and herbs. In 2004 I established a School of complementary medicine in Athens, Greece with the name Akadimia of Ancient Greek and Traditional Chinese Medicine, teaching and practicing all kinds of complementary medicine (e.g. Acupuncture, herbs, reflexology, aromatherapy, homeopathy, nutrition, etc.).

I have written several books in Greek and two of them have been translated in English:

1. Basic Theory of Ancient Greek Medicine.
2. Greek Acupuncture, Meridians and points according to Hippocrates.

In 25/3/2021 I organized the first Congress on Traditional Hellenic (Greek) Medicine. In 25/3/2022 I organized the second Congress on Traditional Hellenic (Greek) Medicine. I am dedicated to the field of Traditional Medicine, and I try to integrate different kinds of Traditional Medicine worldwide like Traditional Chinese Medicine, Traditional Hellenic (Greek) Medicine, Ayurveda, Yunani Tibb Medicine, etc.). My email is: info@akadimia.gr and my school's site is: www.akadimia.gr .

Dr. Roodabeh Bahramsoltani

Position: Assistant Professor of Traditional Pharmacy

School of Persian Medicine, Tehran University of Medical Sciences, Tehran, Iran

Email: Bahramsoltani.roodabeh@gmail.com

Short Biography

Roodabeh Bahramsoltani graduated with a Pharm.D. degree and subsequently earned a Ph.D. in Traditional Pharmacy from Tehran University of Medical Sciences, Tehran, Iran. She is currently an Assistant Professor of Traditional Pharmacy at the School of Persian Medicine, Tehran University of Medical Sciences. She has authored over 60 international papers and several book chapters, and has been listed among the Top 1% highly-cited scientists since September 2022, based on the Essential Science Indicator (ESI). Her research focuses on developing natural medicinal products based on the principles of Traditional Persian Medicine and assessing their pharmacological activities in preclinical and clinical studies.

Dr. Roshanak Mokaberinejad

Position: Associate Professor

**Department of Traditional Medicine,
School of Traditional Medicine,
Shahid Beheshti University of Medical
Sciences, Tehran**

Email: Rmokaberi@gmail.com

Short Biography

Dr. Roshanak Mokaberinejad is a prominent medical doctor and researcher specializing in traditional medicine. She is affiliated with Shahid Beheshti University of Medical Sciences in Tehran, where she has made significant contributions to the field through her research and publications. Dr. Mokaberinejad holds a medical degree and has pursued advanced studies, culminating in a PhD in traditional medicine.

She is the head of the scientific association of Iranian (Persian) traditional medicine and the director of the traditional medicine department of Shahid Beheshti University of Medical Sciences.

Her research interests encompass various aspects of traditional and complementary medicine, her work has been published in several peer-reviewed journals, highlighting her contributions to understanding the therapeutic potential of traditional medicine in modern healthcare settings. In addition to her research, Dr. Mokaberinejad is involved in teaching and mentoring students in the field of traditional medicine. She has also participated in various projects aimed at integrating traditional practices with contemporary medical approaches, emphasizing the importance of holistic care in treating patients.

Dr. Mokaberinejad is a member of various professional organizations related to traditional and complementary medicine. Her involvement in these organizations underscores her commitment to advancing the field and promoting the integration of traditional knowledge into mainstream healthcare.

Roshanak Mokaberinejad stands as a prominent figure in the field of Traditional Medicine, contributing to both academic and practical advancements. Her dedication to research, education, and the integration of traditional practices into modern healthcare continues to inspire students and professionals alike.

Important dates

Event: November 21-23, 2024 – Tehran, Iran

Abstract submission: September 22, 2024.

Registration Deadline: October 21, 2024

**International Symposium on
Policy, Legal & Regulatory Landscape
of Traditional and Complementary Medicine**
